The Taub Academy Application Aims to help computer science students to find a good tutor on CS courses, and give the excellent students who have time and motivation on tutoring the opportunity to be a tutor on the course they want and the time they prefer.

- Taub academy is user friendly, and support a search tools for tutors and filtering by teacher’s salary per hour, rank, and available times.
- The application will let the students rank and write feedbacks to the tutors, and let other students choose the best tutor and make a competitive environment between tutors.

Students: Alaa Nassar, Ahmed Eissa, Ziad Hammod
