Bunny Land is an online multiplayer strategy game that is all about challenge and fun!

- Every player puts a bunny of his color on an empty spot on his turn.
- Putting two bunnies of the same color next to each other is forbidden. 🐣🚫
- The first player to have no legal moves left – loses!

A new map is auto-generated every time you play!
A dynamic tutorial will teach you how to play.

Chat with your opponent and check out his profile!

Bunny Land provides the product owner a website with statistics about the game and users.

After you play, share your results with friends on Facebook!
