PhD Opportunities at the
Claude Shannon Institute
for Discrete Mathematics, Coding and Cryptography

The Claude Shannon Institute is a new and exciting development in Ireland for research in mathematics and communications.

The Claude Shannon Institute will support research in coding theory and cryptography, and all related areas of mathematics, and create a network of mathematicians, engineers, computer scientists and industry partners.

We are now accepting applications for fully funded PhD students in the areas of coding theory, cryptography, and discrete mathematics.

Graduates of mathematics, engineering and computer science are encouraged to apply.

Closing date for applications: 21 February 2007. This will be a rolling deadline.

For further details of our generous funding package, our research projects, and personnel, please visit our web site:
