2013 STEP Intern - Tel Aviv/Haifa

Company overview:

Google is not a conventional company, and we don’t intend to become one. True, we share attributes with the world’s most successful organizations – a focus on innovation and smart business practices comes to mind – but even as we continue to grow, we’re committed to retaining a small-company feel. At Google, we know that every employee has something important to say, and that every employee is integral to our success. We provide individually-tailored compensation packages that can be comprised of competitive salary, bonus, and equity components, along with the opportunity to earn further financial bonuses and rewards.

Googlers thrive in small, focused teams and high-energy environments, believe in the ability of technology to change the world, and are as passionate about their lives as they are about their work. For more information, visit www.google.com/jobs.

Requirements:

- Be currently enrolled in a BA or bsc, majoring in computer science or a related degree.
- Have just completed your first year of undergraduate studies by summer 2013
- Have programming experience in either java, python, c or c++ (army experience is advantage)
- Students who are a member of a group that is historically underrepresented in the technology industry are very encouraged to apply.
Interested to apply? Please send your English resume and transcripts (grades) to Efrat Aghassy aghassy@google.com using this subject line: "STEP intern Application for Tel Aviv or Haifa" (please mention the location you are interested in.)
