Quantitative Researcher

*WorldQuant is a private institutional investment management complex consisting of an international team of researchers and technologists who constantly work toward even greater quantification and automation in the development of its processes.*

**Job Responsibilities (include, but not limited to the following):**

Our research subsidiary in Ramat Gan is seeking mathematics, computer science, physics and engineering majors for quantitative researcher position involving the creation of computer-based models that seek to predict the movements of worldwide financial markets. Candidates need not have prior knowledge of financial markets, but must have a strong interest in learning about stock markets and financial markets. Our highly accomplished senior staff will provide the new hires with mentoring and guidance to help them succeed.

**We offer outstanding career opportunities, which include:**

- Competitive financial rewards, relative to performance and position
- Friendly and collegial working environment
- Opportunity for promotion to Vice President in 2 to 4 years
- Opportunity to learn from investment experts

**Job Qualifications:**

- Ph.D. or M.S. degree from a leading US university and B.S. degree from the top universities in the world, in a highly analytical field, such as Mathematics, Computer Science, Physics, Electrical Engineering, Financial Engineering or any other related field that is highly analytical and quantitative
- Ranked as top 20% in class for bachelor's degree
- Willing to relocate to one of our international research offices
- Have a research scientist mind-set, i.e., be a deep thinker, creative, persevering, smart, a self-starter, etc.
- Be competent in a programming language (C++ or C)
- Possess good English language skills
- Have a strong interest in learning about worldwide financial markets
- Have a strong work ethic

Position is based in our research office: Ramat Gan, Israel.
