Google’s Research and Development Center in Israel is hiring software engineers for our Haifa office. If you are in your final year of a BS, MS, or PhD in Computer Science or have recently graduated and would like to tackle some of technology's greatest challenges (and impact billions of users), apply now to our Software Engineer, University Graduate position (https://www.google.com/about/jobs/search/#!t=jo&jid=3244001). Our engineers in Israel are responsible for projects such as Google Autocomplete, Google Instant, Google Quick Answers, Gmail, Sites, and much more.
