Software Engineering Intern

Location: Caesarea, Israel
Start Date: flexible - in accordance with the university schedule

Why You’ll Love Cisco

Everything is converging on the Internet, making networked connections more relevant than ever before in our lives. Our employees’ revolutionary ideas impact everything imaginable - from entertainment, retail, healthcare, and education, to public and private sectors, smart cities, smart cars, and everyday devices in our homes. Here, that means you'll take creative ideas from the drawing board to powerful solutions that have real world impact. You'll interface with Cisco leaders, partner with experienced mentors, and develop incredible relationships with colleagues who share your interest in connecting the unconnected. You'll be part a team that cares about its customers, enjoys having fun, and you'll take part in changing the lives of those in our local communities. Come prepared to be inspired.

We are looking for brilliant ambitious and motivated Computer Science / Electrical Engineering Student, to join an amazing team in the VLSI field.

Position is opened for top achieving students (grades >88) who completed 2 years of studies from Technicon, Tel Aviv or Ben-Gurion University

What we are looking for:

• Brilliant software engineers, regardless of previous experience.
• People who can quickly ramp on multiple, interdisciplinary domains.
• Team players who enjoy big challenges

About Cisco

The Internet of Everything is a phenomenon driving new opportunities for Cisco and it's transforming our customers' businesses worldwide. We are pioneers and have been since the early days of connectivity. Today, we are building teams that are expanding our technology solutions in the mobile, cloud, security, IT, and big data spaces, including software and consulting services. As Cisco delivers the network that powers the Internet, we are connecting the unconnected. Imagine creating unprecedented disruption. Collaborate with like-minded innovators in a fun and flexible culture that has earned Cisco global recognition as a Great Place To Work. With roughly 10 billion connected things in the world now and over 50 billion estimated in the future, your career has exponential possibilities at Cisco.
