PROGRAM

Monday 5/1/2015
09:00-09:30 Opening welcome and administration
09:30-10:00 Overview of the program and learning outcome
Danny Raz (Bell Labs & Technion)
10:00-11:00 Cloud: What, Why, When - Introduction to cloud
Elisha Rosensweig (CloudBand, Alcatel-Lucent)
11:00-11:30 Coffee break
11:30-13:00 Virtualization – then and now basic principles and practice
Elisha Rosensweig (CloudBand, Alcatel-Lucent)
13:00-14:00 Lunch
14:00-15:30 Hypervisor technology and Cloud
15:30-16:00 Coffee break
16:00-17:30 OpenStack
19:00 Welcome reception

Tuesday 6/1/2015
09:00-10:00 Software Defined Networks (SDN)
David (Dudu) Amzallag
10:00-11:00 Network Functions Virtualization
11:00-11:30 Coffee break
11:30-13:00 Resource allocation in the Cloud
Danny Raz (Bell Labs & Technion)
13:00-14:00 Lunch
14:00-15:00 Monitoring, management and self-adjustment
15:00-16:00 Performance and virtualization can they coexist?
16:15 Excursion

Wednesday 7/1/2015
09:00-10:30 NFV use cases and Heat Tosca recopies
Sivan Barzilay (CloudBand, Alcatel-Lucent)
10:30-11:00 Coffee break
11:00-12:00 NFV implementation models – players and roles
Sivan Barzilay (CloudBand, Alcatel-Lucent)
12:00-13:00 NFV deployment demo
13:00-14:00 Lunch
14:00-15:30 Introduction to Hackathon: mission statement and AWS basics
Elisha Rosensweig (CloudBand, Alcatel-Lucent)
15:30 Hackathon Work
19:00 Pizza and discussions ....

Thursday 8/1/2015
15:30 Hackathon Work (continued)
15:30-16:00 Coffee break and preparing presentations
16:00-18:00 Hackathon projects presentation and winners’ selection
18:00-18:30 Summary
