

Date: June 19, 2019

RESUME

Full name: **Nir Ailon**

Web site: <http://www.cs.technion.ac.il/~nailon>

ACADEMIC DEGREES

- 2006 Department of Computer Science
Princeton University, Princeton NJ
Thesis: Studies in Algorithms: (i) Lower bounds in computational geometry
(ii) Fast approximation algorithms for aggregation of ranking and clustering of data (iii)
Efficient algorithms for dimension reduction of high dimensional data
- 2001 Department of Mathematics
Tel Aviv University, Tel Aviv, Israel
M.Sc. Summa Cum Laude
Thesis: Primitive powers of matrices and related problems
- 1999 Department of Computer Science
Tel Aviv University, Tel Aviv, Israel
B.Sc. Summa Cum Laude

ACADEMIC APPOINTMENTS

- 2010-2019 Professor
Faculty of Computer Science
Technion, Haifa, Israel
- 2006-
2007 Postdoctoral Member
Institute for Advanced Study
Princeton, NJ

PROFESSIONAL EXPERIENCE

- 2008-
2010 Senior Research Scientist
Google Research
New York, NY

RESEARCH INTERESTS

Lower bounds for Fourier transform computation, Learning and optimization, active learning, dimensionality reduction, ranking, clustering, probability in high dimensional spaces and its uses in algorithm design.

HONORS

- 2013 Invited **plenary speaker** at ALT (Algorithmic Learning Theory) and DS (Data Science) in Singapore
- 2012 Paper published in SICOMP (2009) “*The fast Johnson–Lindenstrauss transform and approximate nearest neighbors*” (with B. Chazelle) selected as **SIAM outstanding paper**
- 2012 **Best student paper award** for “*A new active learning scheme with applications to learning to rank from pairwise preferences*” (with advised student R. Begleiter and E. Ezra) in COLT 2012.
- 2011 **Best paper award** for “Almost optimal unrestricted fast Johnson-Lindenstrauss Transform” (with E. Liberty) in SODA 2011.
- 2006 Charlotte Elizabeth Procter Honorific Fellowship, Princeton University
- 2001 Best achievement award in M.Sc. studies, Tel Aviv University
- 1998 Rector's prize (top 3 in B.Sc. studies), Tel Aviv University

DEPARTMENTAL ACTIVITIES

- 2013-2017 Advisor for student exchange
- 2010-date Organizer of open day for undergraduate students
- 2013 Secretary of the faculty council

Professional Activities

- 2016 PC member for Algorithmic Learning Theory (ALT)
- 2015 PC member for Symposium on Discrete Algorithms (SODA)
- 2014 Reviewer for International Conference on Machine Learning (ICML)
- 2014 PC Member for Algorithmic Learning Theory (ALT)
- 2013 Reviewer for National Science Foundation (NSF)
- 2013 Reviewer for International Conference on Machine Learning (ICML)
- 2013 Reviewer for Neural Information Processing Systems (NIPS)
- 2012 Reviewer for International Conference on Machine Learning (ICML)
- 2012 Reviewer for Neural Information Processing Systems (NIPS)
- 2012 Reviewer for Conference on Learning Theory (COLT)
- 2011 Reviewer for Neural Information Processing Systems (NIPS)
- 2011 PC member for Web Search and Data Mining (WSDM)

2011 PC member for Foundations of Computer Science (FOCS)
 2011 PC member for Association for Advancement of Artificial Intelligence (AAAI)
 2008 PC member for RANDOM-APPROX

Ph.D Students

2011- Ron Begleiter (**Graduated**)
 2013 *Research topic: Active Learning*
 2010- Kira Radinsky (**Graduated**) as secondary advisor, co-advised with Prof. Shaul
 2013 Markovitch
Research topic: Knowledge extraction and prediction from the web
 2014- Elad Hoffer
 2019 *Research topic: Deep Network Architectures Theory and Practice*
 Ivo David
 2016- *Learning and optimizing from pairwise preference data*
 2017

M.Sc. Students

2013- Amit Wolfenfeld (**Graduated**).
 2015 *Research topic: Dueling bandit strategies*
 2011- David Wajc (**Graduated**) as primary advisor, co-advised with Prof. Seffi Naor
 2014 *Research topic: Parametrized complexity*

RESEARCH GRANTS

2015 ERC Consolidator Grant (1.4 Million Euro)
 2014 ISF-UGC (University Grant Commission – India) joint research
 (> 100,000 USD, exact sum TBD)
 2013 ISF (180,000 USD)
 2012 Technion-Cornell Institute of Innovation (TCII) (60,000 USD)
 2011 German Israel Foundation (GIF) (16,000 Euro)
 2010 FP7 Reintegration Grant (IRG) (100,000 Euro)
 2010 Yahoo! Faculty Research and Engagement Program (10,000 USD)

PUBLICATIONS

Theses

1. M.Sc. Thesis: Torsion points on curves and common divisors of a^k-1 and b^k-1 , *Tel-Aviv University School of Mathematics*
2. Ph.D Thesis: Studies in Algorithms (i) Lower bounds in computational geometry, (ii) Fast approximation algorithms for aggregating inconsistent data, (iii) Efficient algorithms for dimension reduction, *Princeton University Department of Computer Science*

Refereed papers in professional journals

- J1.** Nir Ailon and Zeev Rudnick. Torsion points on curves and common divisors of $a^k - 1$ and $b^k - 1$. **Acta Arithmetica**, (113):31-38, 2004.

Invitations to Lecture at Workshops and Summer Schools

- 03/2014 Preference Learning workshop
Dagstuhl, Germany
- 8/2012 Workshop on Machine Learning
Mysore, India
- 4/2012 Workshop on probability techniques and algorithms
Austin, Texas
- 6/2011 Workshop on sublinear algorithms
Bertinoro, Italy
- 1/2009 Quantitative and computational aspects of metric geometry
UCLA, Los Angeles, CA
- 6/2008 Workshop on algorithms for massive datasets
Stanford, CA
- 5/2007 Summer school on algorithmic data analysis
Helsinki, Finland
- 7/2006 Concentration week on metric geometry & geometric embeddings of discrete metric spaces
Texas A&M University, College Station, TX
