

TREX

(Technion Research EXplorer)

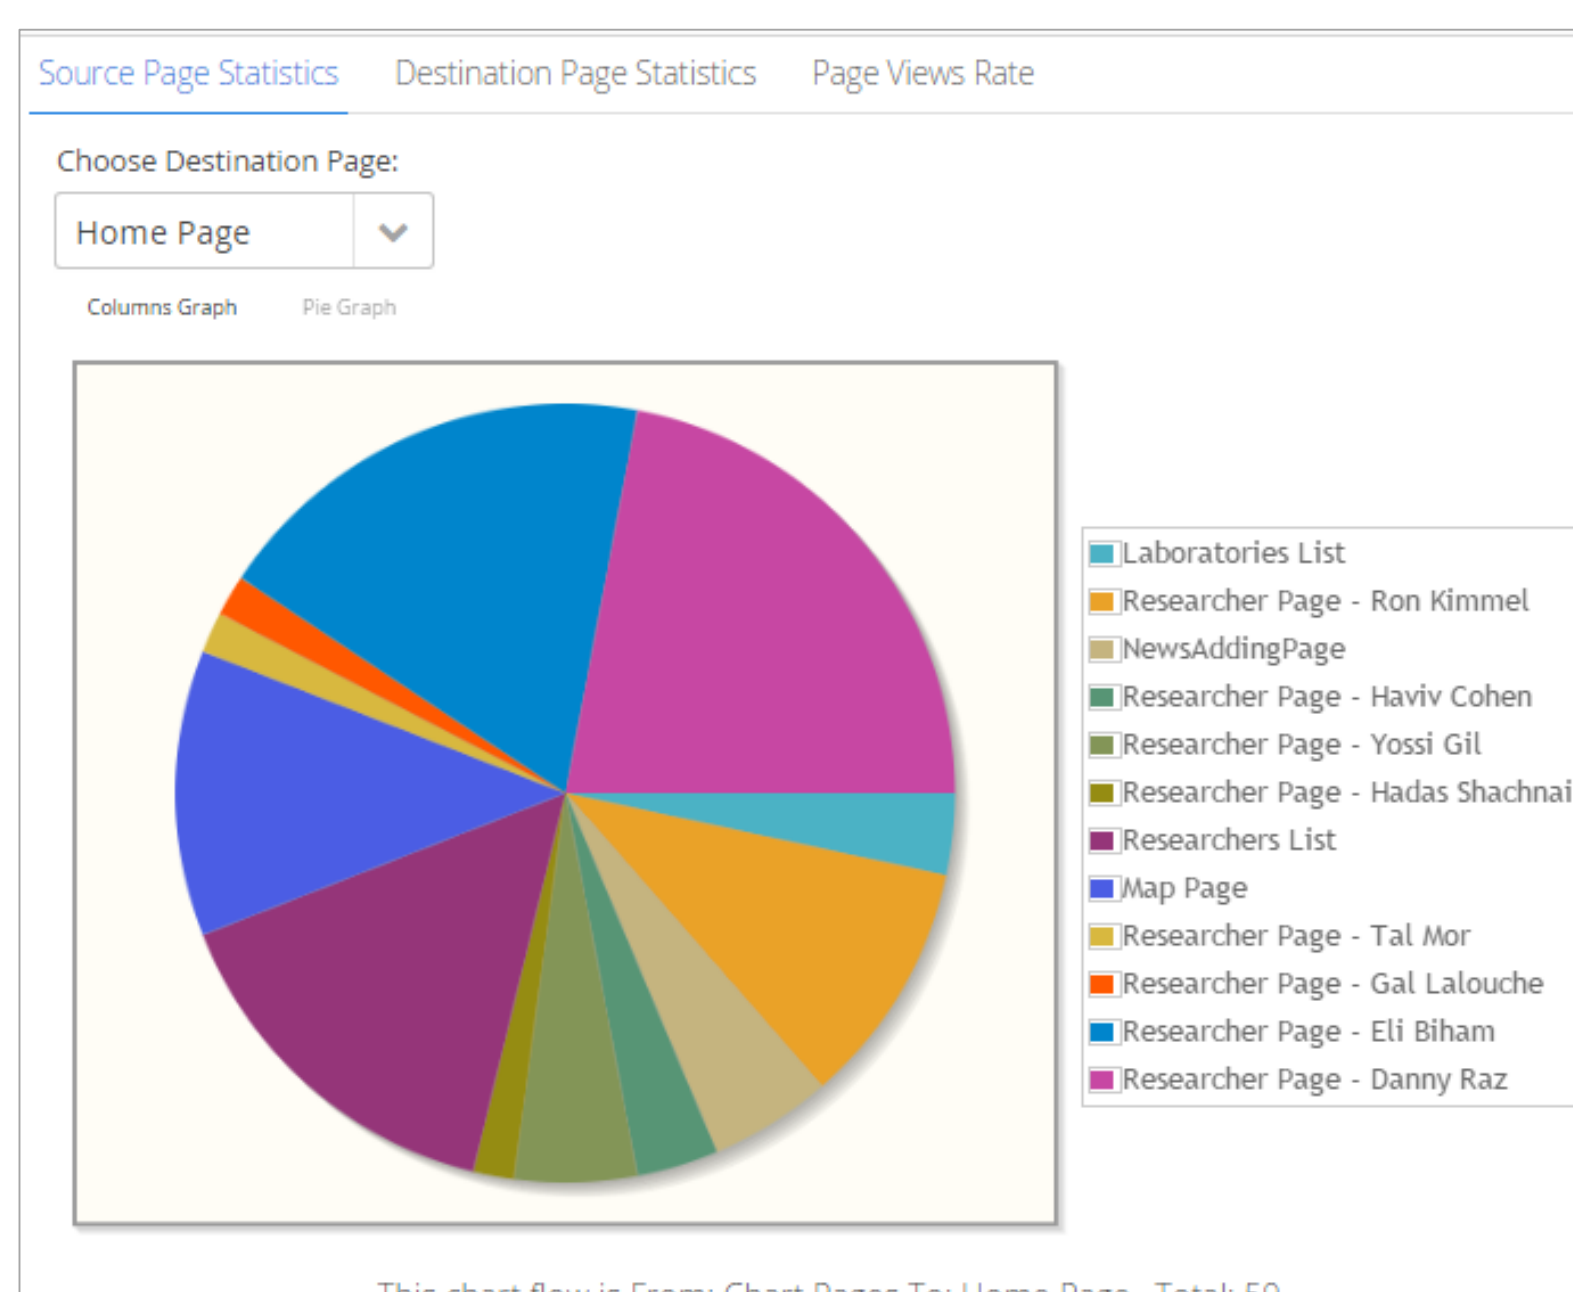

**Looking for a master's degree advisor?
Are you from the industry and you're up for
cooperation with the academy?
You've come to the right place!**

**TREX offers
comfortable and
intuitive access to the
research done in the
faculty, including its
research fields,
articles, laboratories
and researchers.**

+ New Articles Ignored articles Approved articles

	Year	Article Name
☆	2014	Random Algorithms for the Loop Cutset Problem.
☆	2013	A Characterization of the Dirichlet Distribution with Appli
☆	2013	A Sufficiently Fast Algorithm for Finding Close to Optimal
☆	2013	A system for exact and approximate genetic linkage anal
☆	2013	Advances in Probabilistic Reasoning
☆	2013	An Entropy-based Learning Algorithm of Bayesian Condit
☆	2013	Approximation Algorithms for the Loop Cutset Problem.
☆	2013	Asymptotic Model Selection for Directed Networks with H
☆	2013	Asymptotic Model Selection for Naive Bayesian Networks
☆	2013	Factorization of Discrete Probability Distributions
