

FAMILY WEALTH MANAGER

Because A Penny Saved is a Penny Earned

Family Wealth Manager Application helps and supports its users in managing family financial matters. Through its tools of financial goals, cart wizard, financial performance statistics and transactions tracking, FWM is the ultimate tool for optimizing the financial balance and maximizing family savings.

In the main screen, we can see our family balance and details about our expenses by categories.

This screen allows us a better understanding of our family financial situation as well as composing new transaction in only one click away.
